## SEVE DESIGNS NEW ICON RANGE

**MD Golf tap into the legend's expertise.**

MD Golf has unveiled a new series of signature clubs from Seve Ballesteros, the aptly-named Icon range. The five-time Major champion and former Ryder Cup captain collaborated with the Irish company on the design of a full range – including a driver, fairway woods, hybrids and forged irons – and has helped produce

a range of high-quality but affordable clubs. Of course, no Seve range would be complete without some short-game tools, and the Icon range comprises three wedges and four putters designed by the man himself. We might not chip and putt like Seve, but maybe some of the magic will rub off? See page 104 for further details.
